Dear Colleagues:

The 35th Annual Meeting of the Congress of Neurological Surgeons will take place September 30 to October 4, 1985 in Honolulu. This meeting occurs against a background of important societal changes that will affect the practice of neurological surgery. The themes of "Surgical Decision-Making" and "Controversies in Neurological Surgery" make the scientific program particularly pertinent and stimulating. Membership participation has been one of the primary strengths of the Congress and will allow development of new strategies to meet the medical challenges of the coming decade.

The Annual Meeting and Local Arrangements Committee have organized not only an intellectually exciting meeting but one which will take advantage of the spectacular setting of Hawaii and provide you and your family with an opportunity for relaxation in addition to unique Auxiliary and social activities designed to provide a sample of these magnificent islands.

It is a splendid time of the year with perfect weather expected and the scientific and social program is exciting. This will be an outstanding meeting and I look forward to seeing you there.

Sincerely,

Robert A. Ratcheson, M.D.

NOTE: The registration form corresponds to the three-digit number beside each course listing. Use this number when signing up for your choices and elsewhere when indicated.

Residents: When applicable, a three-digit number followed by R will indicate the number you should use to receive complimentary course registration.
