GETTING

Miami Beach is an island 7.2 square miles; it lies just 3 miles across Biscayne Bay from the mainland of the City of Miami. It is connected by six causeways from north to south at 163rd Street, 125th Street, 79th Street, 36th Street, 15th Street and 13th Street. Getting around in Miami by automobile is not difficult but mileage consuming. The street numbering system begins at Miami Avenue and Flagler Street and is divided into quadrants from that point; for example,

A R O U N D

northeast, northwest, southeast, southwest. Streets run east and west as do the terraces. The avenues and places run north and south, but there are exceptions to these rules in the outlying areas, so use a map for such places as Hialeah. The system holds up to 215th Street on the North, 360th Street on the south and 217th Avenue on the west. Flagler Street divides the north and south and Miami Avenue east and west. Americana Hotel is in Bal Harbor at 97th Street and the ocean.
