

Tumor Complications Course

February 22-23, 2025
Four Seasons Nashville
Nashville, TN

Course Description

This course provides a peer review forum for the discussion of complications related to brain tumor surgery. Clinical decisions, operative techniques, and equipment-related issues will be discussed in order to pass along lessons learned, point out safety concerns, and improve the surgical management of patients with brain tumors. The impact of complications on patients' and surgeon's well-being will also be addressed.

Learning Objectives

Upon completion of this course, attendees will be able to:

- Recognize factors that lead to complications and poor outcomes when treating brain tumors
- Discuss strategies for complication avoidance and management
- Identify the impact of complications on patient quality of life
- Discuss how complications impact physician wellness

Accreditation Statement

The Congress of Neurological Surgeons is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
