WELCOME TO TORONTO

The Canadians welcome you to the capital city of Ontario. Opposite the convention hotel is the distinctive City Hall which governs the metropolis situated on the northern shore of Lake Ontario. The plan of Toronto is essentially on a North/South, East/West grid. University Avenue is a few steps to the west of the Sheraton Centre, and looking north on this Avenue you will see the Parliament Buildings which house the seat of Government for the province of Ontario. Canada is a confederation of provinces, and the federal capital, Ottawa, is situated on the beautiful Ottawa River, a pleasant day's drive from Toronto.

Do not hesitate to walk to nearby points of interest or use the integrated transport system. Toronto is a reasonably clean and safe city! One-fare tokens allow almost limitless one-way travel. Don't forget to obtain a transfer if you want to move from one vehicle to another. Money can be changed on the main level of the hotel, at all banks, and at the airport. While U.S. currency is usually accepted anywhere in Toronto, you will get a better rate at an official exchange.

Toronto is the site of the first neurosurgical unit in Canada. K. G. McKenzie trained with Cushing and returned to Toronto to establish a school of neurosurgery which currently is comprised of 20 staffmen and 18 residents. The staff at the various teaching hospitals are happy to have you in our home town and look forward to reciprocating the generous hospitality they have enjoyed in numerous fine American cities. In addition to your capable president, Anne Stewart, and her excellent committee, many local neurosurgical wives have assisted in preparing the auxiliary program. Barbara Schutz has drawn up an excellent and comprehensive guide to Toronto, TORONTO - The Meeting Place 1982, which you will find in your registration packet. It has a colourful maple leaf on the cover. Ruth Schatz, from Hamilton, will greet you personally, or through friends, daily in the Hospitality Suite. She is exceptionally well-informed on Toronto and environs. Ruth Tucker has arranged the fascinating evening on Wednesday. Jo Ann Hoffman has acted in a dual capacity for the Congress. Professionally, on behalf of Insight Planners Inc., she has co-ordinated our daytime tours. Privately, as a neurosurgeon's wife, she has volunteered time, advice, and humour. She's particularly keen to hear Martha Fowlkes! These neurosurgical wives, to name only a few, have contributed hours of thought and effort to making your visit a pleasant one. Please approach us. We'll be wearing leather, maple leaf, pins. The professional guides will be wearing red, white, and navy scarves.

Alan and I join with our neighbours-across-the-lake, Anne and Don Stewart, in issuing a very sincere welcome.

A mini talk will be given on Eskimo sculpture during this part of the day. Then on to 'Ed's Warehouse' — An informative talk on Tiffany glass will speed the trip to lunch amid the Victorian splendour of antique-filled Ed's Warehouse, home of the world's largest collection of Tiffany lamps. WEDNESDAY, OCTOBER 6

SCIENTIFIC AND EDUCATIONAL SESSION

"BEHIND EVERY SUCCESSFUL NEUROSURGEON. . . ."

9:30 am - 11:00 am — Dominion Ballroom North

Martha R. Fowlkes, Ph.D.

Professor Fowlkes is the author of "Behind Every Successful Man; Wives of Medicine and Academe", a thought-provoking book that documents the interdependence of male career roles and female domestic roles in the United States. In her book she questions the traditional sociological view that women's family roles keep them from work; she stresses, instead, how women's domestic roles enable their husbands to work and to become successful in the elite occupational careers they have chosen to pursue. She compares the factors in American society that constrain the wives of physicians to those that constrain the wives of academicians. Dr. Fowlkes will elaborate on these factors during this scientific session in a manner that should help neurosurgeons' spouses better understand the situation of their own lives.

11:35 am - 12:00 — *PRESIDENTIAL ADDRESS*

Doctor Donald Stewart

Grand Ballroom Centre

12:30 pm - 4:00 pm — *ANNUAL BUSINESS MEETING,
LUNCHEON AND SHOW*

Cafe of the Redwoods, Sheraton Centre - \$25.00

We will enjoy a delightful afternoon in the attractive Cafe of the Redwoods on the second floor of the Queen Tower. A delicious set luncheon, wine included, will be followed by a brief business meeting. Then, Brian Percy, Master of Ceremonies par excellence, will present "A Victorian Music Hall", consisting of four singers, with piano and drums, who will present a 60 minute performance of Old Time Music Hall entertainment. The music is presented rather tongue and cheek, but maintains the tradition of the style.

SOCIAL FUNCTION — BUFFET DINNER

The Sheraton Centre - 5:00 pm - 6:30 pm

The evening will begin with an elaborate buffet spread, wine included. A great variety of elegant dishes will be offered.

6:30 pm - 7:30 pm

Buses depart for the Ontario Science Centre. A short bus trip through the colourful Don Valley will take us to the Ontario Science Centre, delicately poised on the valley wall. This Centre, with its 'hands-on' ap-

proach, has proven to contain one of the world's most successful exhibits. In an international competition, it was selected by China as the model for its new Peking science centre. We are welcome to tour this centre at our leisure. This is a great privilege, and we will have the added treat of a visiting major show directly from China - 7,000 years of Discovery. This unique exhibit on many aspects of ancient Chinese arts and sciences, including medicine and pharmacy, will not be seen anywhere else in the world. It is China's 'thank-you' to Ontario for her ideas.

8:30 pm - 11:00 pm — Buses return to The Sheraton Centre

THURSDAY, OCTOBER 7

SCIENTIFIC AND EDUCATIONAL SESSION

*“ADAPTING TO THE DOUBLE-BIND:
LIFE-STYLES OF NEUROSURGEONS' SPOUSES”*

8:00 am - 9:00 am — Dominion Ballroom North
with Panel Participants

Our panel is slated to include these four outstanding and articulate women: Ms. Margie Smith (St. Louis), Ms. Nancy Elgie (Toronto), Ms. Robyn Heilbrun (Salt Lake City), and Ms. Cindy Hudgins (Dallas). They will discuss their own lives and accomplishments, and will explain how their accomplishments have been affected by being married to a neurosurgeon. Come, compare notes, listen, learn and enjoy!

TOUR: COLOURFUL CALEDON HILLS — \$35.00

9:00 am - 4:30 pm — By Bus from The Centre

Take a marvelous trip through southern Ontario's most attractive terrain and the lovely villages of Terra Cotta, Belfountain, Caledon, and Alton. Along the way, we will seek out antiques and collectibles from Ontario's past, and craft items that marry traditional skills to the best of modern design. Our search will take us to charming old houses and peaceful farms, and to the dramatic scenery of Forks of Credit. This would be a delightful day in any season, but it will be breathtaking during this particular time of year when the leaves change colour and put on their glorious autumnal show. Lunch is planned at a beautifully restored country inn.

TOUR: ARTISTS' STUDIO VISITS — \$20.00

9:00 am - 1:30 pm

We will join three different accomplished artists at work in their studios and have an opportunity to learn both their techniques and aesthetics. Meeting these renowned artists in their own environments will provide us with an intimate understanding of the artistic process, along with an opportunity to see finished pieces and work in progress.

SOCIAL FUNCTION
