EXPLANATORY NOTES

This volume, Part I, World Directory of Neurological Surgeons, includes only those neurological surgeons in the United States of America. Part II, a separate volume, published in June, 1967, contains the listings of neurological surgeons elsewhere in the world. These two volumes, therefore, comprise the most complete, most current, single directory of the world's neurological surgeons.

Part II, World Directory of Neurological Surgeons (outside of the United States of America) has very recently been distributed to all members of the Congress of Neurological Surgeons, officers of the World Federation of Neurosurgical Societies and to the presidents and secretaries of the component national societies of the World Federation. In addition, members of the Board of Directors of the American Association of Neurological Surgeons and members of the American Board of Neurological Surgery were sent copies.

Part I (World Directory, United States of America only) has been sent to all those listed herein. This directory is a project of the Congress of Neurological Surgeons and is distributed through the courtesy of its members.

The information recorded in this volume is current as of September 25, 1967. Only the office listing is included for each surgeon. In those cases where more than one address is reported to the Survey Committee, only the primary office is recorded herein.

This present volume will serve to replace the Directory of Neurological Surgeons in the United States of America published in September, 1966, which has been completely revised.

The listing of the individual neurological surgeon in this directory is not a certification of his professional qualifications. The best information available to us was utilized in preparing this directory but there must, of necessity, be some errors, both in exclusion as well as inclusion. Any omission is purely unintentional.

If a name or listing is not found initially, please consult the Appendix. This short list contains information which was returned after the publishing deadline, those with partial information, those listed as in training, etc. Any additional information regarding these listings or those who may not be listed, will be appreciated by this Committee. All neurological surgeons now listed herein will receive in August of 1968 a postal card-type, concise questionnaire, stamped and return-addressed; please return these promptly to insure as accurate and as inclusive a directory as possible.

A copy of this directory is available only to neurological surgeons or other physicians when requested on their own letterhead; a nominal charge will be billed at the time of mailing the directory.

Corrections, additions, comments or suggestions to improve this directory will be enthusiastically welcomed by the Survey Committee's Chairman, George Ablin, M.D., 2828 H Street, Bakersfield, California 93301.
