CERTIFICATE AND EMBLEM
COMMITTEE

Dr. Richard L. DeSaussure
899 Madison Avenue
Memphis, Tennessee

Put in file

Dear Dick:

At the last meeting of the Executive Committee in Chicago, the group was in favor of a membership card. I would appreciate your Committee proceeding with the plans for a membership card, including design, and an estimate of the cost of supplying membership cards to the membership.

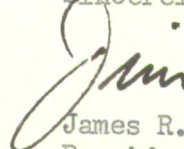

Since the Executive Committee will meet in Memphis in June, 1954, I would appreciate your supplying the Executive Committee with a sketch of the membership card which you propose, and one or more estimates from a printer as to the cost of this item. Keep in mind that membership cards should be durable, attractive, readable, and have rounded corners.

I don't believe that we are ready to go into the award certificates for exhibitors, although this is an important item for future planning.

It was a pleasure to see you in New Mexico, and I hope that I will have an opportunity to see you during my visit to Memphis.

Kindest personal regards.

Sincerely yours,

James R. Gay, M.D.
President
